INTRODUCTION

WHAT WE DO?

Socio Social Media Management System is a social media platform where a group of and big features and functionalities are provided to users. Users can create their own profile and post pictures and videos and also can like and comment on other people's posts. Users can also search for other users and follow them to see their posts in their feed. Users can also see their own profile page where they can see their posts and edit their profile. Users can also see their own profile page where they can see their posts and edit their profile. Users can also see their own profile page where they can see their posts and edit their profile
